

Wireless Monitoring Option for Models 850 and 950

The **Wireless Monitoring Option** is available for order with PVRV Models 850 and 950. This option allows the remote sensing of the open or closed position of the pressure and vacuum vents which **enables immediate response to prevent problems related to safety, emissions and quality of the tank contents.**

Features and Benefits

- Wireless transmitter which connects to the pressure and/or vacuum sides of the PVRV
- Built-in proximity sensors that allow the transmitter to detect the open or closed position of the vents
- Signals received by transmitter can be sent to a control room via a gateway
- Fully-tested and integrated design

Application, Sensing and Sample Rate

Model Numbers	Sizes	Pressure/Vacuum Sensing	Transmitter Sample Rate
Model 850	2" (50.8 mm) through 12" (305 mm)	Sensor triggers between 10% and 15% open	Once/8 seconds
Model 950			

Ordering Option Codes

Sensing Type	Option Code
Pressure	WP
Vacuum	WV
Pressure and Vacuum	WPV
