JOIN OUR TEAM

We are seeking the following highly skilled professionals to work, learn, and succeed with Emerson's Instrument & Valve Services:

VALVE TECHNICIANS

focus on tearing down, repairing, building new assemblies, and calibrating. Performing diagnostics of all control valve and instrument brands using FlowScanner, AMS & Delta V, our valve technicians primarily work in the shop environment, performing field service as needed.

FIELD SERVICE TECHNICIANS

build customer relationships by providing solutions-oriented support through installation, maintenance, and repair of Fisher valves and Rosemount

instruments, products and systems as well as training customers on service and use.

MACHINISTS

have expertise in materials, cutting tools, speeds and feeds, coolant requirements and machining techniques. Guided by

blueprints and samples, they machine parts from bar stock and raw castings while consistently maintaining proper production techniques.

CUSTOMER SERVICE ASSOCIATES

interface with industrial manufacturing customers, suppliers, sales representatives, and other employees in functional areas such as finance and production. Customer Service Associates also ensure customer satisfaction from quotation to delivery by monitoring status and providing troubleshooting as needed.

EXPERTISE ACROSS INDUSTRIES

As the largest supplier of valve service in North America, Emerson's Instrument & Valve Services helps customers avoid unplanned costs and unscheduled downtime through comprehensive start-up, diagnostic, repair, and maintenance. We provide cutting-edge service across diverse industries, including:

- CHEMICAL
- PULP AND PAPER
- OIL AND GAS
- REFINING
- HYDROCARBON AND ENERGY
- LIFE SCIENCES
- POWER

Combining world-class service with innovative technologies, our engineering, consulting, project management and maintenance services, along with elite Emerson brands, including Plantweb, Fisher, Micro Motion, Rosemount, DeltaV, Ovation and AMS Suites, have made us a market leader.
