

GET MORE with Fisher™ Products

So what do you get? Thoroughly dependable operation and long service life, just what you'd expect when you invest in Emerson's Fisher products. The quality found in them runs deeper than their metal and paint. It is found in the meticulous design process, rigid testing program, and advanced manufacturing techniques. You get immediate benefits and the greatest lifecycle value because of this attention to detail.

Go to Emerson.com/FisherGetMore to watch a short video about everything that comes with Fisher valves.

Local SUPPORT

There are over 500 sales offices and service centers worldwide to provide the broadest local representation. Experts are ready when you need them to maintain and repair your equipment.

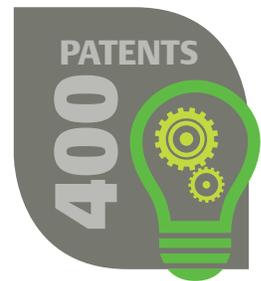

Operational SAVINGS

Fisher products are tested for safety, reliability, and performance—three pillars that lead to your overall success. You can be confident they will survive in your facility—where and when it really counts.

Innovative SOLUTIONS

Customers depend on us to solve their toughest challenges. Our passion is engineering full-on. Since 1960, we've had more than 400 Fisher technologies so unique and innovative that they were awarded U.S. patents.

Precise Flow CONTROL

You get broad flexibility for use in your applications. Fisher products offer accuracy, ease-of-use, and stable control from mild process conditions to temperature, pressure, and flow rate extremes.

Time-tested QUALITY

For more than 135 years, Fisher products have been trusted by the process control industry. You will get consistently high product quality from all of our manufacturing plants. The easily recognizable all-green paint identifies valves carrying the Fisher brand.

Engineering Full-On is at the Core of Our DNA and Behind Every Fisher Product

Emerson is engineering full-on to help our customers address unsolvable challenges unlike any other company. In many cases, our new valve technologies are first-of-their-kind solutions. Let us solve your challenge today!

Invest in the greatest lifecycle value by choosing Fisher valves and instruments. They are proven reliable because of extensive, full-scale testing. The scope of testing capabilities is broad and includes environmental, sound, and vibration.
