

475

FIELD COMMUNICATOR

INNOVATIVE. UNIVERSAL. AGILE. POWER YOUR EXPERIENCE.

THE 475 FIELD COMMUNICATOR DELIVERS A COLORFUL USER INTERFACE AND FASTER OPERATION

The 475 Field Communicator establishes the new standard for handheld communicators. With a full-color user interface, powerful diagnostic capabilities, and fast start up and operating times, the 475 Field Communicator will power your experience and simplify your work in the field.

Use the 475 Field Communicator to configure field devices or perform diagnostics for effective troubleshooting in the field. Create a quality segment, detect power supply problems, run valve diagnostics, or locate incorrect terminations and faulty devices without dragging a laptop into the plant.

The 475 Field Communicator supports all HART®, FOUNDATION™ fieldbus, and WirelessHART™ devices and is intrinsically safe so it can go wherever you go.

INNOVATIVE PORTABLE COMMUNICATOR

- View device diagnostics in charts, graphs, and gauges for easy readability and diagnosis with full-color user interface
- View, transfer, and print device configurations between your communicator and PC
- Run valve diagnostics and troubleshoot on Fisher® FIELDVUE™ digital valve controllers in the field with ValveLink™ Mobile and easily transfer results to AMS Suite for additional analysis
- Achieve days — not hours — of run-time with the Lithium-Ion power module
- Work more efficiently with fast start up and operating time
- Establish quick connection between your PC and communicator with Bluetooth® communication
- Take your communicator to all areas of the plant with Intrinsic Safety certifications, including CENELEC/ATEX, FM, CSA, FISCO, and IECEx

FIELD COMMUNICATOR

GAIN POWERFUL FIELD DIAGNOSTIC DATA FROM YOUR DEVICES

INTERFACES WITH AMS SUITE TO EFFICIENTLY MONITOR YOUR ASSETS

The 475 Field Communicator is fully compatible with AMS Suite: Intelligent Device Manager. AMS Device Manager allows you to configure, calibrate, document, and troubleshoot HART, FOUNDATION fieldbus, and WirelessHART devices.

Easily transfer device configurations between AMS Device Manager and the 475 Field Communicator via Bluetooth to ensure you are always looking at the most updated device information. Or use the ValveLink Mobile application to run valve diagnostics for troubleshooting in the field and transfer data to AMS Device Manager for additional analysis.

KEEP YOUR COMMUNICATOR UP-TO-DATE WITH EASY UPGRADE

Your 475 Field Communicator is user upgradeable via the Internet. You never need to send your communicator away to have new drivers, functionality, or licenses added.

New HART and FOUNDATION fieldbus devices, as well as updates to existing devices, are continually introduced by device vendors. With *Easy Upgrade*, you can keep your communicator updated with the most current Device Descriptions (DDs) for all the devices in your plant. Update at your site, get only what you need, and do it when it is convenient for you.

The 475 Field Communicator delivers the flexibility, power, and innovation you need to make your job easier.
