Subject: IP51 Rating for the 475 Field Communicator

To Whom it May Concern;

This is to confirm that the 475 Field Communicator complies with the requirements of the IP51 standard. It specifically complies with the **DIN EN 60529:1991 + A1:2000 cl. 13.4 and 14.2.1** standards.

Testing was performed by TUV Rheinland® and documented in an internal reported dated 29 May 2009 and documented in a test report provided by this organization.

Compliance with the IP51 standard is stated on Overview Product Data Sheet available under the Documentation section at [www.fieldcommunicator.com](http://www.fieldcommunicator.com).

Sincerely,

Alan Dewey
