

LIFECYCLE SERVICES - SMART WIRELESS PRE-PAID START-UP SERVICE

Get the maximum results from your wireless solution

Increase efficiencies, Reduce start-up stress

Emerson Smart Wireless products allow you to access more data points in more locations, while better monitoring and diagnosing all your plant issues in real time. These solutions are not only cost effective to implement, but they are also easily scalable as your needs grow. By choosing Emerson Smart Wireless pre-paid start-up service, you can avoid the hassles of getting up and running, including the need to pull your team from other important tasks. You'll gain the peace of mind that comes with knowing your systems are expertly installed within your timeline and backed by an extended product warranty.

+ WHAT IF

MORE DATA. LESS HASSLE
... WHAT IF
you could get your Emerson Smart Wireless system up and running with less hassle, while offering your team added skills to ensure you're running more efficiently down the road?

With Emerson Service pre-paid start-up support, our trained technicians can get you on line according to your schedule and train your staff so you're better equipped to run at maximum efficiency for years to come.

Bring a worry-free wireless start-up to your plant

Trust our experienced technicians to bring you comprehensive and cost-effective Smart Wireless start-up service.

+ LEARN MORE

Learn more about Emerson and the most innovative solutions at :

www.emerson.com/wireless.

- + Start-up on your schedule — Our fast commissioning allows you to quickly benefit from the rich data wireless technology can offer. Service includes one site visit, Monday through Friday, 08:00 to 17:00. All travel expenses are included, which means no surprise costs to you.
- + Ensure the highest quality — Our technicians develop the most efficient network design and then install according to your reference standards. They configure transmitters, perform diagnostic tests and verify outputs so you'll have confidence your systems operate at maximum performance.
- + Improve staff skillsets — Our experts will share basic training on Smart Wireless product fundamentals with your employees, and demonstrate essential installation, operation, and troubleshooting guidelines, so your team will be better equipped to diagnose and resolve common device issues.
- + A technician will check in to verify that your transmitters continue to perform properly. If needed, you can discuss and arrange for any additional service or training needs.
- + Get 6 months extra warranty — An additional 6 months of protection beyond the 1-year factory warranty gives you peace of mind that each device included in your start-up service package will keep operating smoothly.

Emerson wireless products have logged over 1 billion operating hours across the globe, with a proven ability to increase efficiency and reduce costs. Contact Lifecycle Services today to learn how we can optimize your wireless network and unleash its full potential.
