TÜV NORD Systems Certificate Addendum
2012-Dec-07, Rev. 1.0
Certificate SEBS-A.102430/12

1 Purpose

This document is an addendum to the TÜV NORD Systems GmbH & Co. KG certificate SEBS-A.102430/12.

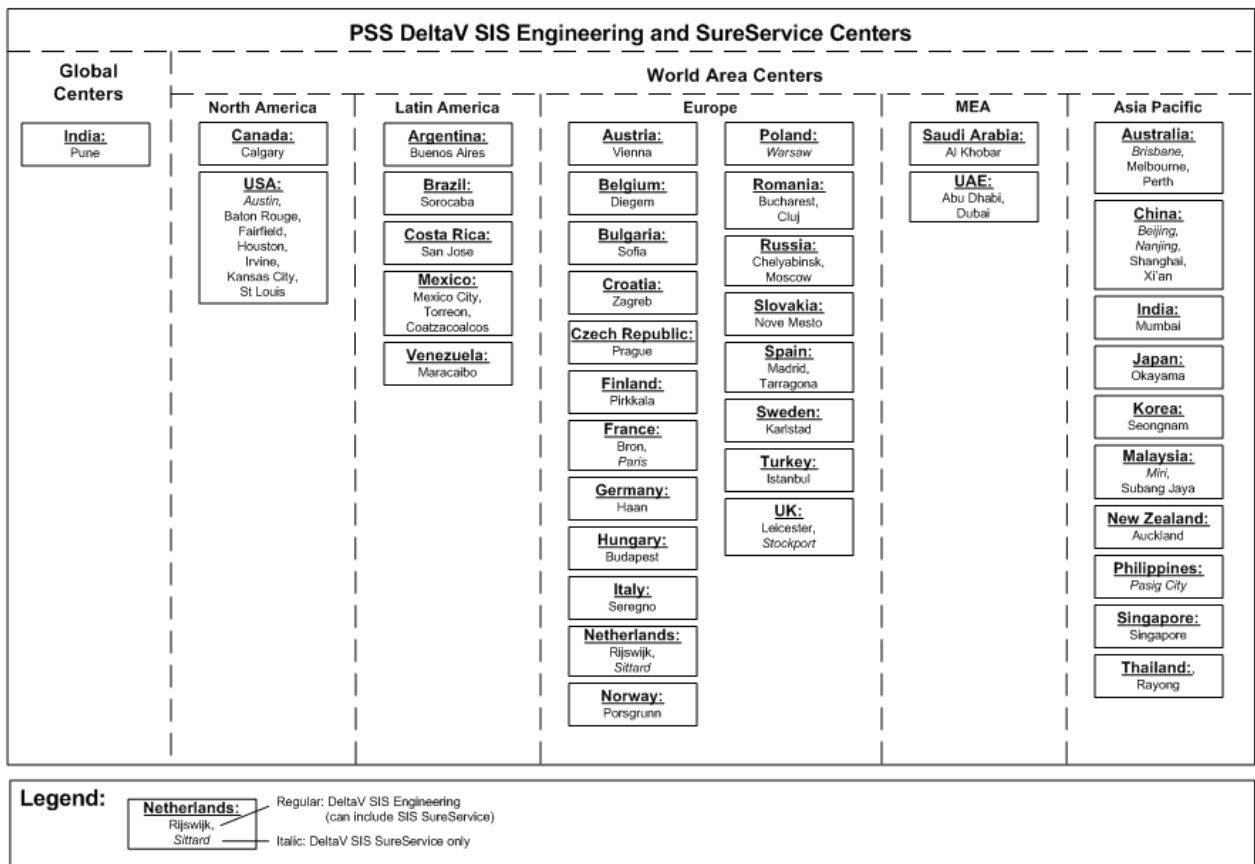

This certificate covers the global implementation of a Functional Safety Management System in accordance with IEC 61511 and IEC 61508 for Management and Control of SIS applications using DeltaV SIS and associated field devices.

The purpose of this addendum is to list all Emerson Process Management offices of the Process, Systems and Solutions (PSS) business unit that are covered under the above mentioned certificate.

Whether or not an office is included in the addendum is not specific to the office itself, but determined by the people working out of that office. An office listed in the addendum is the home office for one or more SIS Certified Engineering and/or SureService resources, who are executing the SIS projects in accordance with the TÜV NORD Systems certified processes.
