

Rosemount 304 Manifolds

Steam Heat-Trace Block Kit (SB Option)

FEATURES

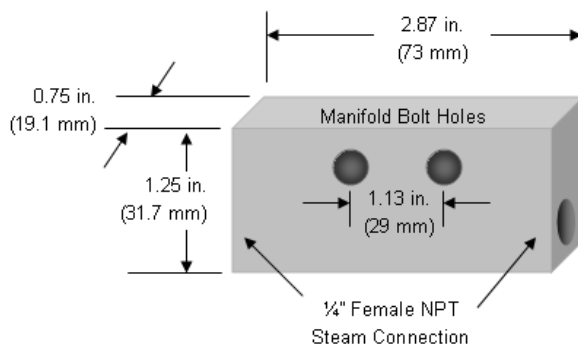

- Prevents the process fluid from freezing in the manifold in cold-environment services
- Accepts ¼" NPT steam line connection for process heating
- Compatible with Rosemount 304 traditional-style manifolds (not compatible with wafer-style manifolds)
- Can be used with VS & VC heavy-duty manifold mounting brackets
- Easily installed on-site

MATERIALS OF CONSTRUCTION

316 SST

DIMENSIONS

Weight = Approx. 1 lb (0.45 kg)
