

ROSEMOUNT® SMART WIRELESS PRE-PAID START-UP & COMMISSIONING SERVICE

Ensure the integrity of your Smart Wireless network

Certify network performance and get online, on time

Rosemount® measurement instrumentation with Emerson™ Smart Wireless technology lets you access more data points at more sites than ever before. Now you can monitor and diagnose plant issues in real-time no matter how remote the location.

As you rely more on this new and complex technology, you will want to be sure it is properly installed, configured and commissioned. Maximize device capabilities and get up-and-running on time with Rosemount® Lifecycle Services from Emerson. Not only will we certify your wireless network and products to OEM specifications, we will manage your start-up according to your demanding schedule—so you can free up your staff for other more important duties. With a robust wireless network from day one, you'll be able to easily add more measurement points as your operations grow.

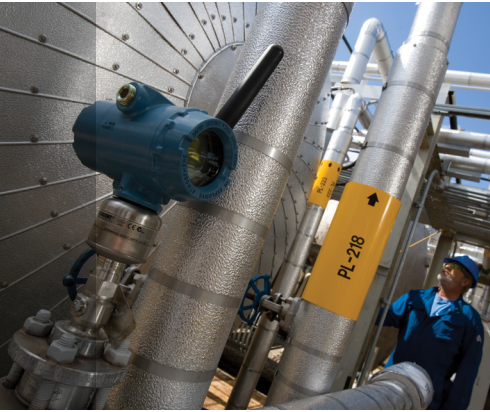

ON SPEC. ON TIME.

Use the Rosemount Smart Wireless Pre-paid Start-up & Commissioning Service to make sure your wireless network and products are operating to optimal specs, on your start-up schedule.

Emerson service technicians are factory trained and Rosemount Certified to get you online, on time. We can also train your staff and extend your warranty to keep your wireless network running at peak performance for years.

EMERSON™
Process Management

Proven performance for a strong start

Get the most from your Emerson™ Smart Wireless network solution.

+ STRAIGHT FROM THE CUSTOMER

“When weighted against what was gained from this project, the total project cost, including installation services and customized user interface software, seemed quite reasonable given the project’s payback.”

– **Michael Fischback**,
Facilities Engineer, PHP

+ Ensure the highest quality

- Validate and certify proper installation of Smart Wireless Gateways and field instrumentation according to your reference standards
- Configure and commission field instruments onto your networks
- Perform diagnostic testing and verify transmitter outputs to ensure network and signal strength are strong
- Implement an efficient network design that readily accepts new, additional field instruments

+ Start-up on schedule

- Set up an onsite visit during the business week from 7 a.m. to 5 p.m.

+ Improve staff skill set

- Conduct onsite training on product fundamentals with Emerson service technicians
- Demonstrate essential installation, operation, and troubleshooting guidelines to better diagnose and resolve common device and network issues

+ Get a three-year warranty*

- Increase your one-year factory warranty to three years with this start-up service

+ Receive a one-year follow-up

- A technician will contact you to assess transmitter and network performance

Rosemount wireless products have logged billions of operating hours globally, increasing plant efficiency and reducing costs. Contact your representative today to learn how we can optimize your wireless network to unleash its full potential.

* If the Smart Wireless device was purchased with an extended warranty, and you’ve purchased this service, then whichever warranty is longer will be in effect.
