

Technical Product Training Program 2017

ROSEMOUNT TANK GAUGING PRODUCT TRAININGS

Rosemount Tank Gauging offers training courses customized for service engineers, and they can also be good for project and sales engineers.. The courses include both practical and theoretical training. During 2017 we have two different training sessions open for Emerson employees, LBPs and customers.

TANK GAUGING TECHNICAL PRODUCT TRAINING

The Tank Gauging Technical Product Training focuses on the 5900 System, our Wireless Tank Gauging System, Pro and also Rex, plus other field equipment relevant to the Rosemount Tank Gauging System. The training covers installation, configuration and troubleshooting of our products, as well as general TankMaster functions.

This course is suitable for service engineers, and can also be good for project and sales engineers. It is a good introduction for new employees and customers.

Course dates RTG101:
 Feb 27 - March 3, 2017
 May 8 - 12, 2017
 September 11 - 15, 2017
 November 20 - 24, 2017

TANKMASTER TRAINING

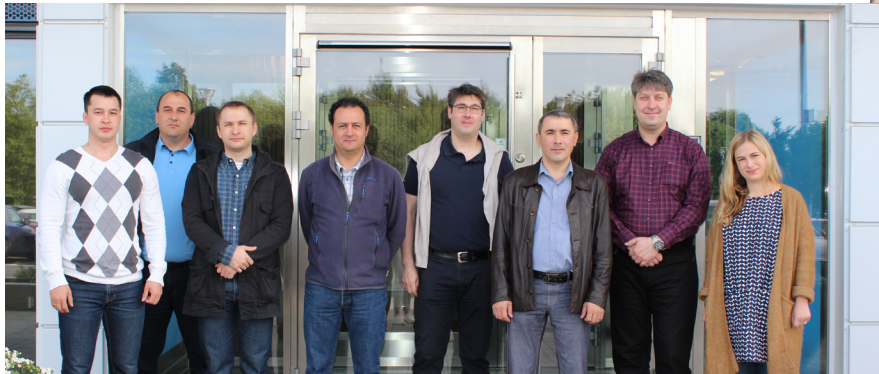

The TankMaster Training covers more detailed information about TankMaster functions. This course is suitable for anyone who works with TankMaster including customers who use WinOpi as the operator interface. Among other useful functions in TankMaster, the training covers batch-handling, custom views and redundancy.

It is required that you have previously attended the Technical Product Training course or have good knowledge of the Rosemount Tank Gauging System.

Course dates RTG102:
 March 28 - 31, 2017
 October 17 - 20, 2017

QUALITY TIME FOR QUESTIONS & DISCUSSIONS

To ensure we provide top quality educational lectures and rewarding hands-on exercises, there is a maximum of 18 participants for the Technical Product Training- and 12 participants for the TankMaster Training.

Practical Information	
Location	All courses are held at the Rosemount Tank Radar HQ in Gothenburg, Sweden
Course fee	For prices contact Training Manager, Ann-Charlotte.Ronnvall@Emerson.com or your business contact.
Terms	The nominal course fee covers material, lunch and transportation between hotel and Rosemount Tank Radar office. Travel and hotel costs are paid by the participants.
Accommodation	We will reserve hotel rooms on behalf of all participants. All room charges will need to be settled by the participant. The cost for a standard single room is SEK 1145* per night, tax and breakfast are included.
VISA	If you need a VISA for Sweden (the Schengen countries), please send us the course application and a copy of your passport / passport number at least three weeks before the course starts, this in order for us to prepare invitation letter.
Cancellation fee	The last day for cancellation is two weeks prior to the start of course. Although the courses are free of charge for Emerson employees and LBPs, cancellation after this date will be charged at 5000 SEK. We reserve the right to cancel the course due to the lack of registered course participants up to two weeks before the course starts. We therefore recommend you buy open and fully refundable tickets.

*Price may be 200SEK higher if there is a major event at the Gothenburg Convention Center
