

Guaranteed to ship your order
in two business days!

A+ PROMISE

OUR PROMISE, YOUR PEACE OF MIND.

Electrical Distributors purchase a large variety of products from hundreds of different manufacturers every year. For your distribution organization to remain competitive, it's crucial that those manufacturers provide you with service you can count on. Service that involves keeping first-rate products in stock and available, and always maintaining prompt delivery times - so that you can manage your inventory more effectively, knowing you can count on assured replenishment.

As a global manufacturer of the highest-quality electrical products, Emerson is committed to providing the best possible service to distributors. That's why we now offer the A+ Promise.

Under the A+ Promise, we offer thousands of the leading industrial, commercial, and hazardous environment products - including those from respected brands Appleton, O-Z/Gedney, and SolaHD. Normal order quantities are promised to ship within two business days or your next scheduled ship day, and our Service Team will work with you to expedite large demand requests to meet your project timelines, without delay.

The A+ Promise is available to all of our U.S. distributors, and requires no additional steps to enroll. A+ products can be easily identified online, on our public websites as well as our proprietary ecommerce website for sales representatives and distributors.

Receive the best electrical products right when you need them. Speak with your Sales Representative today to learn how the Appleton Group A+ Promise can help you better serve your customers.

OUR PROMISE. YOUR PEACE OF MIND.

A+ PROMISE

FREQUENTLY ASKED QUESTIONS.

What is the A+ Promise?

- It's a promise to ship normally ordered quantities of thousands of the leading industrial, commercial and hazardous location products in two days or your next scheduled ship date

Why are we doing this?

- Appleton Group is launching the A+ Promise in order to highlight our service level capabilities and tools we have put in place over the last 2 years, such as:
- Improved business system
- Warehouse efficiency investments
- VMI capabilities
- Expanded EDI capabilities
- Perfect Execution toolset
- Abnormal demand process
- Regional S&OP forecasting

Why now?

- We completed an internal pilot, proving sustained deliverability and extremely-high service levels

Why is this important?

- We understand the need to provide reliable service to meet our customer's expectations
- These expectations have evolved and the need for speed of information and products have increased
- The A+ Promise provides confidence in Appleton Group's delivery to help electrical distribution better serve their customers

Who can be eligible?

- All US distributors will receive the benefits of the A+ Promise, without any need to enroll

How do we ensure we meet the Promise?

- A+ items are monitored dynamically, reviewed often, and any potential service issue will be identified and resolved as quickly as possible. The current list of A+ items is always available on line.

Sometimes, I see low or zero availability for inventory on Member's Only for an A+ item, how can this be?

- Member's Only reflects only a snapshot of our inventory and does not reflect inventory in transit. We promise to ship the items within the 2 day window.

Why do you have Maximum Order Quantities for A+ items?

- In order to protect all customers, we only promise to ship order quantities comprising ~99%+ of all orders. Our customer service team will work with you to schedule large projects.
