

# Looking for a reliable PROFIBUS automation partner?

- Reduce risk with reliable products
- Ensure success with certified support
- Simplify start-up with innovative technology

## Industry leading Emerson technology is now available in PROFIBUS

Your trusted source for quality and reliable process management solutions now offers the latest PROFIBUS profiles and functionality.

Emerson PROFIBUS products now include Rosemount® transmitters, Rosemount® Analytical devices, Micro Motion® flowmeters, Fisher® valves, AMS® Device Manager, and DeltaV™ digital automation system.

# The current offering of Emerson PROFIBUS products include:

## Rosemount

### 3051 Pressure Transmitter

Offers Best-In-Class performance with simple addressing and configuration through a local operator interface (LOI).

### 2051 Pressure Transmitter

Provides simple addressing and configuration through a LOI.

### 644 Temperature Transmitter

Ensures interoperability with Profile 3.02 and offers custom factory address configuration.

### 8732E Magnetic Flowmeter

Detects wiring and process noise with Advanced Process Diagnostics.

## Micro Motion

### 2700 Coriolis Transmitter

Provides accuracy even under the toughest conditions with high-speed digital signal.

### 2400S Coriolis Transmitter

Delivers unmatched performance with ultra-fast signal processing.

## Rosemount Analytical

### 1056 Dual Input Intelligent Analyzer

Displays two primary and four secondary measurements on an enhanced LOI.

## Fisher

### DVC6200p Digital Valve Controller

Provides easy commissioning, calibration and tuning.

## DeltaV

### S-series Interface Card

Enables improved process availability by integrating device signals directly into control logic.

## AMS Device Manager

Monitors alerts for PROFIBUS DP V1 devices and allows configuration and access to additional device information.
