

Introducing a regulator that can stand the test of time, temperature and pressure.

The new Fisher® CS800 Series Commercial Service Regulator.

Type CS800IR

Proven reliability. Rugged construction. In-line maintenance. For more than 100 years, Fisher has set the standard in technologies and products for the LP-Gas industry — and the new Fisher CS800 Series Commercial Service Regulator offers even more advanced features to help fuel your business.

- Up to 2 NPT or flange connection
- Capacities from 10 to 20M BTU
- Functionally tested from -40° F to 160° F
- Ease of maintenance and installation
- Enhanced construction materials for long-lasting strength

With greater durability, simpler maintenance and a higher speed of response, it's anything but standard. The CS800 Series is engineered to stand the test of time in commercial applications. For more information, locate your LP-Gas distributor at www.fisherregulators.com.
