

SAVE THE DATE

Visit the largest Users Conference in Europe.

Why attend?

The Emerson Global Users Exchange is more than an industry-leading technical conference...it is a community of manufacturing leaders committed to extracting the most from their automation investment...and sharing their learning with each other.

- **Learn best practices** and see how colleagues are improving efficiency and reducing costs with automation. Several hundred workshops and short courses specially selected for practical results on pertinent issues.
- Touch and experience the **innovative Emerson technologies** all in one place. More than a football field-sized area of Emerson technologies and complementary vendor solutions will be exhibited with **live hands-on demonstrations**.
- **Meet with the Emerson experts** behind the technologies and learn how innovative technologies can be put to work for you. Emerson experts will present product and service roadmaps, host demonstration booths, and provide opportunities to speak to your needs.
- **Network** with your peers and other industry leaders. Throughout the conference you can meet face-to-face with industry and process experts, speak with Emerson leaders and interact with fellow automation professionals.
- Receive **training courses** and enhance your **practical knowledge**. Get the most out of your automation investments and realize its true value. The Exchange is a user community committed to extracting the most from their automation investments and sharing their learning with each other.

How?

Emerson offers a package including 3-day conference, training session, accommodation and meals. You also have the possibility of attending one day only. Make your selection and return your registration form.

Questions?
