

Long lead times extend your schedule
and stretch your patience.

So why wait?

No wait. No worries. Emerson's Fisher® GX control valve ships in one week or less. And that's not the only thing that is fast. The GX combines with the FIELDVUE™ DVC2000 Series instrument for quick commissioning with pushbutton calibration. Put the GX to work in your plant. Learn more. Call **0870 240 1978** or visit www.EmersonProcess.com/GX
