

# Micro Motion® ProLink® III Configuration and Service Software

World class configuration, service, and troubleshooting tool

*Looking to streamline work practices?*

*Improve process control?*

*Trend and remotely troubleshoot meters in the field?*

Micro Motion ProLink III is an intuitive software tool that simplifies the most complex configuration and diagnostic tasks – quickly and easily.

ProLink III Feature Comparison		
Features	Basic	Professional
Full transmitter configuration	●	●
Alert notification	●	●
Alert resolution guide	●	●
Diagnostics/inputs/outputs display	●	●
Load or save device configurations	●	●
Smart Meter Verification launch	●	●
Smart Meter Verification reports		●
Process variable trending		●
Offline configuration management		●
Device simulation		●
Data logging		●
Multidevice comparison tool		●
Guided process support tools		●
Modbus TCP		●

## Benefits:

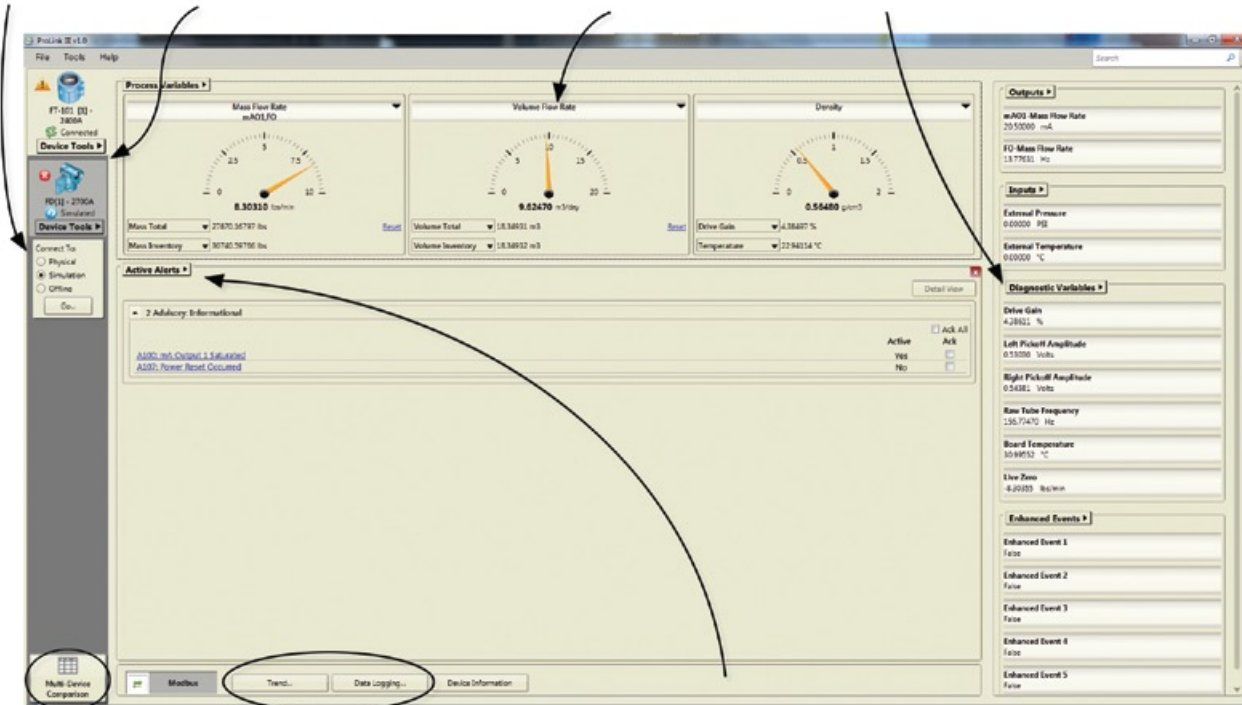

- Reliable view of your key process information from one main display screen
- Connects to all Micro Motion Coriolis meter transmitter types
- Supports HART, Modbus RS-485, and Modbus TCP communications
- Easily configures your transmitter from a single access point
- Alert conditions and process variables displayed upon first device connection
- Process variable comparison tool while evaluating multiple devices
- Monitor system performance with trending and data logging
- Graphical process variable trending views
- Reduce time connected to meters in hazardous areas through offline configuration tool
- Drag and drop transmitter connection wizard
- Easy upgrade option available for ProLink II users

Simulate a device or create an offline configuration

Connect to and navigate between multiple devices simultaneously

At a glance, you can quickly see your key process variables and diagnostics data – allowing you to better manage your system performance

Compare the performance of connected devices for more streamlined meter interrogation

Monitor meter performance by charting process trends and logging system data

Easy access to active alerts, and receive immediate support in understanding how to respond to the issues
