The latest return policies, procedures, and forms are also available from the Micro Motion web site: **www.micromotion.com**. These procedures must be followed for you to meet governmental requirements. They also help us provide a safe working environment for our employees. Failure to follow these requirements will result in your equipment being refused delivery.

***A Return Material Authorization (RMA) number must be obtained prior to returning any equipment to Micro Motion for any reason.***

To obtain an RMA number, contact your Micro Motion representative or local Micro Motion office. Alternatively, you may contact us at any of our service centers. Phone numbers are listed on the previous page.

- No product returns will be accepted without an RMA number.
- Each returned sensor must be issued a separate RMA number. A sensor and its associated transmitter may be shipped in the same package with a single RMA number.
- If no sensor is being returned, all transmitters and peripheral devices being returned may be shipped together, in one package, with a single RMA number.
