

RE: IMPORTANT INFORMATION FOR USERS OF DANIEL ULTRASONIC METER TRANSDUCER EXTRACTOR TOOLS (Part Numbers, 2-1-3415-005, 2-1-3415-001, 2-1-3415-003, 2-1-3415-003, 1-360-01-396 and, 1-360-01-434).

Daniel Ultrasonic Meter Extractor Tool allows for on-line transducer extraction. This tool has an elastomeric seal that is critical to its safe, proper functioning.

Periodic maintenance of the tool is critical to ensure the integrity of the Extractor Tool. Failure to do so could result in the uncontrolled release of gas which can lead to a safety hazard.

In order to be sure that your Extractor Tool is properly maintained and functioning correctly, please contact your Daniel representative, who will be happy to arrange for an inspection and maintenance check of the equipment at our facility in Houston, TX, USA. Upon receipt of your Extractor Tool, Daniel will provide this inspection and maintenance at no charge to you. We will also assist in arranging a training course in proper field use and maintenance of the Extractor Tool.

If you have sold or transferred an Extractor Tool, please forward this letter to the transferee immediately, or advise us immediately of the name and address of the transferee and we will forward this information to them. Moreover, [please click here to download the updated ultrasonic meter extractor tool manual](#).

For further information on the inspection, maintenance and training program, please contact +01.713.827.6314 or contact danielservice@emerson.com. Please provide the serial number(s) and original purchase order number(s) for any tools in your possession, if known.
