

Valve Automation Online Store Enhancements

Beginning November 16th, 2015, the Valve Automation Online Store will have the new look and feel with the following enhancements

1. The enhanced Online Store is now compatible with different Browsers like Google Chrome, Internet Explorer and Firefox. There is no need to setup the compatibility settings like before.
2. The Online Store URL will change. Starting 16th November, 2015, the old URL will be redirected to a new URL. **Please save the new URL in your browser favorites.**

Old URL

https://businessapps.emrsn.com/OA_HTML/xxibeCAcdLogin_VA.jsp

New URL

https://businessapps.emrsn.com/OA_HTML/xxibeVAHome.jsp

3. The enhanced Online Store home page looks different. The new color enhancements are in alignment with our Emerson brand and website guidelines.
 - The home page has three icons: 1) Product Catalog 2) Product Sizer and 3) Project Workspace
4. Logging into the enhanced Online Store is easy.
 - Sign-In is on right side of the page. To login, simply enter your user name and password and click Sign-In button. Please note that your login credentials remain the same.
 - For New User Account requests, please click Create New Account, provide your details and we will get back to you with your online store login credentials.

6. Menu Option Tools-> Sizing Tools links to the Query Actuator Info and other Conversion tools.

Tools -> Knowledge Base has the Product related definitions and FAQ

Tools->Product Advisor links to Actuator Sizing.

The screenshot displays the Emerson Valve Automation Online Store interface. At the top, the Emerson logo and navigation links (INDUSTRIES, PRODUCTS & SERVICES, NEWS / EVENTS, DOCUMENTATION, MEDIA CENTER) are visible. The main header features a green banner with the text "Valve Automation Online Store" and navigation options like "PRODUCT CATALOG", "TOOLS", "ACCOUNT", and "PREFERENCES". A search bar and "Products" dropdown are also present. The breadcrumb trail shows "Home > Product Catalog > Pneumatic". The "TOOLS" dropdown menu is open, highlighting "Sizing Tools" with a red circle. Below this, a pop-up window titled "Tools - Google Chrome" lists various tool categories with descriptions:

Tool Category	Description
Conversion Tools	Tools to convert pressure, torque, temperature from one unit of measurement to another
CV/Operating Speed Calculations	Tools to calculate Control component CV and actuator speed of operation.
Tank Sizing	Tools for Air Tank Sizing and Relief Valve Orifice Sizing
Submerged Head Pressure	Tools to calculate Submerged Head Pressure for the specified fluid type and height
Query Actuator Info	Tool to fetch torque values of a model when user knows the actuator model.
Query Valve Info	Tool to fetch torque values when user knows the information of valve.

The pop-up window also includes a "Close" button. The background page shows a sidebar with "Product Catalog" and "Actuation Technologies" (Electric, Hydraulic, Pneumatic, Spares, All Brands). On the right, there is a "CONTACT CUSTOMER SERVICE" section with a support email address and several quick links (Product Advisor, Contact Sales, Website Feedback, User Manual, FAQ, Videos) and promotional banners.

7. Tools->Track Order helps in tracking the order status.
