FOR IMMEDIATE RELEASE

Emerson Launches High-Capacity 10” Type FL Regulator

McKINNEY, TEXAS (May 23, 2012) – Emerson Process Management announces its launch of the Tartarini™ 10” Type FL regulator. The new 10” size can handle higher capacities than current Tartarini™ FL regulators.

The 10” FL is a pilot-operated regulator that is well suited for high-pressure drop applications such as city gate stations, power plant fuel supply and turbine fuel supply. The SR II noise attenuation option can reduce noise levels as much as 20 dB (A) depending on flows and pressure drop. The FL can also be configured to be used as a relief valve or backpressure regulator.

The 10” Type FL regulator complements Emerson’s current family of 1”, 2”, 3”, 4”, 6” and 8” size FL regulators. It handles higher capacities while providing all of the benefits of the other FL sizes, such as true no-bleed design, easy startup, noise attenuation options, balanced trim design, bubble-tight shut off, 1480 psig inlet/outlet rating, control accuracy and modular design. The low number of parts makes for easy maintenance.

About Emerson Process Management

Emerson Process Management (www.emersonprocess.com), an Emerson business, is a leader in helping businesses automate their production, processing and distribution in the chemical, oil and gas, refining, pulp and paper, power, water and wastewater treatment, mining and metals, food and beverage, life sciences and other industries. The company combines superior products and technology with industry-specific engineering, consulting, project management and maintenance services. Its brands include PlantWeb™, Syncade™, DeltaV™, Fisher®, Micro Motion®, Rosemount®, Daniel®, Ovation™, and AMS Suite.

About Emerson

Emerson (NYSE:EMR), based in St. Louis, Missouri (USA), is a global leader in bringing technology and engineering together to provide innovative solutions for customers in industrial, commercial, and consumer markets through its network power, process management, industrial automation, climate technologies, and appliance and tools businesses. Sales in fiscal 2009 were \$20.9 billion. For more information, visit www.Emerson.com.
