

Mimic™ Simulation Software Product Support

Key Benefits

- Minimize downtime and system disruptions with faster issue resolution
- Efficient management of software updates
- Improve collaboration by managing systems across your enterprise

Introduction

Faster issue resolution leads to less unplanned downtime. Get unlimited 24x7 support with secure remote system diagnosis capabilities. You can call or chat with our support team or submit questions and issues through the Guardian digital platform or mobile app. Email and chat support are also available 24 hours during Monday through Friday.

Features

System Health Score
The System Health Score measures Key Performance Indicators (KPIs) that determine the performance of high-risk areas. These risk areas typically include KBA management, software updates, and service calls.

24/7 Expert Product Support (GSC)
Includes unlimited 24x7 Expert Telephone Product Support, with secure remote system diagnosis capabilities. You can call our Product Support or submit questions and issues through the Guardian platform or mobile app. Email and Chat Support are also available 24 hours during Monday through Friday.

Remote System Diagnosis
Remote system diagnosis helps speed-up troubleshooting and problem resolution, effectively reducing downtime in critical situations.

Service Call Logs
Service Call Logs allow you to monitor the progress of technical support calls, examine past service calls, and send/receive call status updates.

Software/Firmware Updates
The latest software updates, patches, and hotfixes matched to system content can be accessed directly from the Guardian platform.

KBA Knowledge Base Articles (KBA)
KBAs are prepared by Emerson as a supplement to standard product documentation. These are evaluated for applicability to a broad audience of system users.

Asset and License Inventory
Guardian provides an updated and accurate inventory of all system components and licensing. Access information like serial numbers, software and hardware versions, and registered system licenses.

Downloadable Installation Media
Guardian allows you to download the installer media of our latest major software version and upgrades, including new features and enhancements. Users can download the latest media directly from Guardian.

Ordering Information

A product support quotation can be requested by contacting your local Emerson sales office or representative organization or by logging in to the Guardian platform and selecting Request to Quote. An email notification will be sent to you as reference and to the appropriate Emerson representative who will assist you with your request.

The part numbers below apply to perpetual licenses. For subscription licenses, Product Support is included in the subscription.

NOTE: Guardian Enterprise Agreements use the single-year part number for agreement calculations.

Service Requirements

- Mimic version 3.5 or higher required.
- System information collection requires periodic customer use of an automation-assisted process using the standard Mimic registration utility. This process does not require a direct Internet system connection.

How It Works

Mimic Simulation Software Product Support is delivered through Guardian. Guardian is Emerson’s digital platform for addressing the end-to-end lifecycle needs of automation & control software and asset performance management solutions. The Guardian digital experience enables users to quickly connect to product support; securely manage subscriptions; get intuitive views into system health; and explore additional software and services that propel performance.

With Guardian, You Can:

- **Easily Access Product Support:** Connect to experts available 24x7x365 to troubleshoot and fix system disruption.
 - **Minimize Downtime:** Gauge the overall health of your system via the system health score that measures critical Key Performance Indicators related to system maintenance, find relevant recommendations, KBAs and more!
 - **Simplify Subscription Management:** Manage your Emerson product subscriptions and plan for timely renewals, all from one place.
 - **Expand Operational Capabilities:** Propel operational performance to new levels by strategically selecting and deploying a range of services and solutions.
