## Emerson Global Users Exchange

October 1–5, 2018 in San Antonio, TX

### SPURRING INNOVATION

## Upstream Oil & Gas Essentials

### ESSENTIAL SESSIONS

Take part in our featured Upstream Oil & Gas sessions at the 2018 Emerson Global Users Exchange. This industry-specific content has been designed to help you:

- **Industry Forums:** Discover how digitalization can give you a competitive edge in our Upstream Industry Forum.
- **Workshops:** Learn best practices, implementation successes, tips and tricks, and proven project solutions with more than 30 relevant workshops and presentations.
- **Short Courses:** Enhance your capabilities with CEU-certified short courses.
- **Networking:** Share and learn from your peers in our Oil & Gas professional networking event.

### TECHNOLOGY EXHIBITS

In the Technology Exhibits, you can experience some of Emerson's latest technologies—including new intelligent digital instruments, enhancements to our control systems, and our solutions for Upstream Oil & Gas.

#### See the future of industry through our new Digital Transformation Experience

This interactive exhibit will demonstrate how new technologies and systems can help your organization meet production targets, reduce costs, and minimize HSE risk to bring you closer to achieving Top Quartile Performance.

Our partners will also be there showcasing their products and services.

### INDUSTRY FORUM

**Oil & Gas Industry Forum: Leveraging Digital Transformation to Achieve Operational Certainty in Upstream Oil & Gas**

Monday, October 1 • 2:30 pm–4:00 pm

With investors increasingly putting pressure on Exploration and Production companies to improve financial performance and achieve positive cash flow, today's unconventional oil and gas producers must seek operational improvements to increase profit margin while still meeting production targets and safety standards. The forum will focus on digital transformation and what practical automation solutions operators have implemented to be more competitive in a lower oil price environment, ensuring regulatory compliance and maintaining safety.

Some topics covered in the forum include:

- Achieving Top Quartile Performance through Digital Transformation
- Surveillance by Exception Leveraging Field Automation and IIoT
- Health, Safety and Environmental Compliance
- Operational Cost Management

### NETWORKING

**Network with industry peers at the exclusive Oil & Gas Mixer**

Monday, October 1 • 7:00 pm  
Tower of the Americas

Join other oil & gas professionals in this exclusive event. Leverage this unique opportunity to engage with our subject matter experts and many of our top executives to discuss your most pressing issues.

Contact [Josh.Johnson@Emerson.com](mailto:Josh.Johnson@Emerson.com) for details.

#### Music Jam!

Tuesday, October 2 • 7:15 pm–12:00 am  
Aztec Theatre

Come celebrate the musical talents of the Exchange community during our annual Emerson Exchange Music Jam. Be sure to stop by and enjoy this exclusive rock n' roll event.

#### Emerson Networking Event

Thursday, October 4 • 6:00 pm–9:00 pm  
Tobin Center for the Performing Arts

Network with your fellow attendees while you enjoy the sights and sounds of a casino along with world class entertainment.

### MEET THE EXPERTS

Thursday, October 4 • 2:30 pm–4:00 pm  
Friday, October 5 • 8:30 am–10:00 am

Meet, learn from and consult with the "Experts Behind the Technologies". Visit [EmersonExchange.org](http://EmersonExchange.org) for complete details.

# CONFERENCE SESSIONS FOR UPSTREAM OIL & GAS

Get new perspectives on how to manage your operations by participating in a variety of conference sessions. Our Product Roadmaps will provide insight on the future direction of Emerson's portfolio of products, solutions and services while our Workshop and Educational Services courses will help you gain new perspective on how to leverage technologies to drive process improvements, reduce costs and improve productivity.

## PRODUCT ROADMAPS

### 7-160440

DeltaV PK Controller Product Update

### 7-160494

Advancing Emerson Subsea and Downhole Measurement Solutions

### 7-160686

Emerson Expands its Rosemount Pressure Gauge Offering with the Smart Pressure Gauge

### 7-161482

Fisher Instrument Roadmap Update

### 7-161524

Emerson Micro Motion Product Updates

### 7-161725

Extending Coriolis Recalibration Intervals in 90 Seconds with Smart Meter Verification

## TECHNOLOGY ROUNDTABLES

Join our Technology Roundtables to stay up to date technology trends, current use cases, and practical issues with industry experts and peers.

### TR-219837

Best Practices for Improving the Accuracy and Reliability of Gas Flow Measurement

### TR-219832

Cyber Security—Safeguarding Control Systems from Adversarial to Non-Adversarial Threats

### TR-219831

Digital Transformation

### TR-219833

Getting the Most Out of a Virtualization Infrastructure

### TR-219836

Technologies for Reliability, Energy, Production, and Safety

### TR-219835

Wireless—What Can It Do for You?

## ESSENTIAL UPSTREAM WORKSHOPS

### 2-161133

Custody Transfer Measurement with Micro Motion for Heavy Oil to Maximize on Improved Profitability

### 2-161885

Produced Oil and Water Pump Skids

### 2-161391

Wireless Drilling Mud Tank Monitoring for Speed, Efficiency and Reliability

### 2-162242

How Emerson is helping EOR Increase Eagle Ford Production 30–70 percent

### 2-161875

Five Hours of Time for 15 Minutes of Work? How Wireless Changes a Workover

### 2-161941

Anadarko's Wireless Roadmap: From Awareness to Adoption

### 2-161981

Custody Transfer Done Right! Truck-Mounted Coriolis Measurement Systems—Safe, Accurate and Efficient

### 3-159993

Process Control OXys Digital Transformation Journey

### 3-160893

Well Pad Inventory Management—Reducing Operational Cost While Getting Paid for What You Produce

### 3-161485

Utilizing the Multi-Port Flow Selector Valve to Minimize Costs on Bulk/Test Locations

### 3-161553

Streamlining Shale: Oil and Gas Production Control and Optimization with ROC800

### 3-161630

Well Pad Engineering Epiphanies—Automation Disruption

### 3-162013

Well Pad Automation for the Next Generation

## EDUCATIONAL SERVICES COURSES

Over 20 Educational Services Courses are being offered for attendees at no charge. It's a great way to sharpen your knowledge or learn something new while earning CEU credits. Visit [EmersonExchange.org/Americas](http://EmersonExchange.org/Americas) to learn more.

This is only a portion of the overall offerings, covering a wide spectrum of industry and technology-specific topics. Get a full list of Emerson Exchange courses, product roadmaps, workshops and more at [www.EmersonExchange.org/Americas](http://www.EmersonExchange.org/Americas)
