

400 Series Modulating Pilot PRV

True Modulating for Less Emission & Stable Operation

- **Premium Tightness:**

Increase system output up to 98% of set pressure without valve leakage

- **Easy Field Test Capability:**

Unique field test capability allow accurate set pressure verification with valve in service

- **Modulating Action:**

Modulated relieving to reduce product loss, reaction force and noise

- **Premium Remote Sensing Capability**

Remote sensing up to 200ft from pressure source
