ACQUISITIONS

AUTOMATION SOLUTIONS

- **Advanced Engineering Valves**

The Advanced Engineering Valves (A.E. Valves) business enables Emerson to provide its customers with the world's broadest portfolio of valves to improve process performance and reliability.

- **Intelligent Platforms**

Intelligent Platforms' programmable logic controller (PLC) technologies enable Emerson to provide its customers broader control and management of their operations.

- **Aventics**

Aventics is among the global leaders in smart pneumatics technologies that power machine and factory automation applications, and significantly expands Emerson's reach in the growing \$13 billion market for fluid automation technologies.

- **Paradigm**

Paradigm, joined with Emerson's existing Roxar software business, creates a best-in-class, end-to-end Exploration & Production (E&P) software portfolio with offerings spanning seismic processing and interpretation to production modeling.

COMMERCIAL & RESIDENTIAL SOLUTIONS

- **Tools & Test**

Tools & Test is a leading manufacturer of electrical and utility tools, diagnostics, and test and measurement instruments with strong global distribution and highly respected brands, including Greenlee and Klauke. Joined with Emerson's Ridge Tool Company, this acquisition creates a global \$1 billion professional tools business for Emerson, with the broadest offering for mechanical, electrical and plumbing contractors.

- **Cooper-Atkins**

Cooper-Atkins, a leading manufacturer of temperature management and environmental measurement devices and wireless monitoring solutions, is a strong complement to Emerson's global cold chain business. This includes the ProAct™ Services portfolio for supermarkets and the Cargo Solutions business, which provides real-time perishable cargo tracking and monitoring.
