

APERIO™ BUNKER DATALOGGER

Simplify bunker data logging with an integrated Marine solution

Reliable data logging is essential to bunker vessel operations, supporting operational transparency, historical record retention, and regulatory compliance. Increasing custody transfer demands and evolving regulatory requirements place greater emphasis on maintaining reliable access to operational data for compliance, auditability, and effective troubleshooting.

Aperio™ Datalogger is Emerson Marine's integrated data logging solution designed for bunker vessel applications. It helps operators maintain confidence in critical operational data, improve maintainability, and simplify lifecycle support through a modern, service-backed solution that supports reliable record retention and long-term system reliability.

Support Reliable Operations

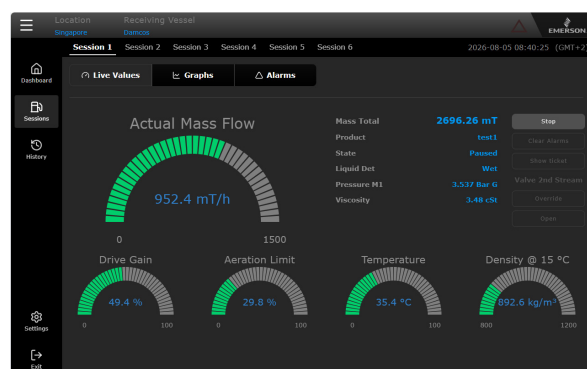

- Reliable data recording and storage
- Historical record retention support
- Supports SS648 data retention requirements

Improve Maintenance Efficiency

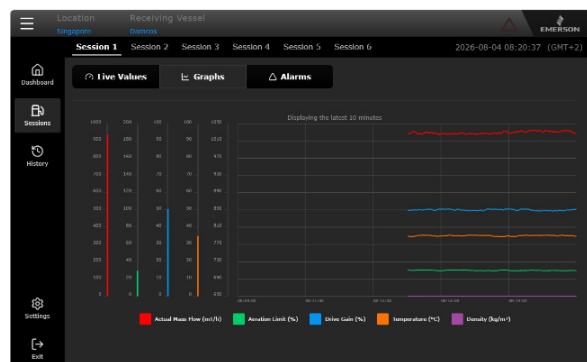

- Modular architecture designed for easier maintenance
- Component-level replacement capability
- Reduced lifecycle maintenance costs

Simplify Lifecycle Support

- Direct access to Emerson Marine service teams
- End-to-end lifecycle support services
- Faster troubleshooting and issue resolution

APERIO™ BUNKER DATALOGGER-SIMPLIFY DATA LOGGING

How Aperio™ Datalogger Works

Aperio™ Datalogger collects, stores, and presents critical bunkering operation data through an integrated platform designed to support operational visibility, long-term record retention, and system maintainability.

Designed for retrofit projects and new vessel installations, Aperio™ Datalogger helps operators replace aging data logging systems while improving maintainability, simplifying lifecycle support, and ensuring reliable access to operational records.
