

DeltaV™ MES Subscription

- Lower initial investment
- Enhanced flexibility and scalability
- Enhanced end user experience via Customer Success interaction
- Continuous access to feature enhancements and regular product updates
- Over 5 years, save up to 40% with subscription versus perpetual licensing and services

Introduction

DeltaV™ Manufacturing Execution System (MES) is transitioning to a subscription-based model that combines term-based software licensing and product support in a packaged solution optimized for greater flexibility and accelerated return on investment (ROI). This will enable your organization to stay competitive by ensuring consistent access to the latest capabilities and innovations available.

Whether transitioning an existing perpetual license to a subscription model or purchasing a new subscription license, we offer a convenient path to meet you where you are.

Benefits

- **Reduced Initial Financial Barrier to Entry.** Reduce initial investment through subscription rather than upfront capital investment.
- **Enhanced Flexibility and Scalability.** Scale your software needs as your business grows or changes.
- **Easy License Management.** Through the Guardian site, you will be able to easily manage and monitor your subscriptions from one convenient location.
- **Customer Success.** Our Customer Success team will partner with you to guide your journey from onboarding to adoption and scaling.
- **Continuous Innovation and Regular Updates.** Capitalize on regular software updates and rapid access to the latest innovations. You will have access to the most recent product updates during the subscription term.

Subscription Overview

DeltaV MES v7 and beyond is subscription-based and composed of licensing, product support, Guardian access, major and minor fault fixes, new features, extended component support – basic, extended interface support – basic, extended environment support, scheduled system assessment and extended support for legacy workflow (WF 4.6).

How DeltaV™ MES Subscription Licensing Works

DeltaV MES v7 subscription-based licensing provides flexibility in the length of the term (license terms lengths of 1-, 3-, or 5-years are available). This includes auto-renewal with an opt-out option.

To learn more about Emerson's subscription software offerings, see this **brochure**.

Key Points

- Perpetual license holders may continue to use their software license; however, all new features for the platform will only be on subscription.
- Existing perpetually licensed systems can buy more capabilities such as perpetual users, Recipe Authoring (RA) clients, non-production systems, and NLB keys. Additional production systems must be purchased on subscription.

DeltaV™ MES v7 Subscription

- Licensing
- Product Support
