

PACSystems Branding Updates & New Product Naming Convention

We are introducing updated branding and product names to make our portfolio easier to understand and navigate. This approach removes unnecessary complexity, improves consistency across our offerings, and creates a more intuitive user experience. By enhancing the RXi product naming convention, we anticipate you will now be able to more easily identify and select the right solutions for your applications and operational needs.

As part of this effort, we are aligning our industrial PCs, HMIs, and related accessories under the Emerson brand to create a unified user experience across all Emerson automation platforms, including PACSystems™, DeltaV™ and Ovation™. The PACSystems and PACMotion™ brands will continue to be associated with our PLCs, I/O, and Motion Control product platforms, while our SCADA solutions will continue to carry the Movicon™ brand.

Please take a moment to review the naming convention guide below. We also recommend filing this guide for reference as needed.

What You Need to Know

- All offerings listed below are Current or Active and remain available for sale.
- The product/SKU numbers have not changed and remain the same for the renamed Current and Active products. Please continue using the same product/SKU numbers for new inquiries and orders.
- If your product is not listed below, it has moved to Supported or Retired status and new models are no longer available for sale. Please refer to recent lifecycle announcements or contact your local sales representative to discuss alternative solutions.

Solutions Continuing Under the PACSystems & PACMotion Brands

Programmable Logic Controllers (PLCs)	
Simplified Product Names Now in Use	What Changed?
PACSystems 200-Series Compact, Modular PLCs	200-Series PLCs also known as RSTi-EP PLCs
PACSystems 300-Series Rack-Based Programmable Automation Controllers	300-Series PLCs also known as RX3i PLCs
PACSystems 400-Series Standalone PLC with Native Linux Edge Intelligence	CPE400, CPL410 and CPS400 models are now part of the 400-Series family

I/O Modules	
Simplified Product Names Now in Use	What Changed?
PACSystems Slice-Based High-Density I/O	Slice-Based I/O also known as RSTi-EP I/O
PACSystems Rack-Based High Performance I/O	Rack-Based I/O also known as RX3i I/O
PACSystems 8000-Series Advanced Process I/O*	8000-Series I/O also known as PAC8000 I/O
PACSystems VersaMax Modular I/O*	(no name or brand change)

*The 8000-Series I/O and the VersaMax model should only be considered for existing installation sites. These offerings are not recommended for new designs.

Motion Control	
Simplified Product Names Now in Use	What Changed?
PACMotion Variable Frequency Drives (VFDs)	(no name or brand change)
PACMotion Servo Motors	(no name or brand change)
PACMotion Servo Drives	(no name or brand change)

Solutions Transitioning to the Emerson Brand

Industrial PCs	
Simplified Product Names Now in Use	What Changed?
Emerson 2000-Series Industrial PCs for Standard Edge Workloads	2010 Dual-Core & 2010 Quad-Core are now part of the 2000-Series Industrial PCs and PACSystems brand updated to Emerson
Emerson 6000-Series Industrial PCs for High-Capacity Edge Compute	6010 IPC is now part of the 6000-Series Industrial PCs and PACSystems brand updated to Emerson
Emerson 7000-Series Industrial PCs for High-Performance Edge Compute	7010 IPC is now part of the 7000-Series Industrial PCs and PACSystems brand updated to Emerson
Emerson 8000-Series Industrial PCs for High-Density Edge Compute	8010 IPC is now part of the 8000-Series Industrial PCs and PACSystems brand updated to Emerson

Industrial Displays & HMIs	
Simplified Product Names Now in Use	What Changed?
Emerson QuickPanel+ All-in-One HMI & PLC	PACSystems brand updated to Emerson
Emerson Web Panel Industrial Thin Client Displays	PACSystems brand updated to Emerson
Emerson Modular Industrial Displays	Industrial Monitor is now Industrial Display and PACSystems brand updated to Emerson

Ethernet Switches & Power Supplies	
Simplified Product Names Now in Use	What Changed?
Emerson GLM Industrial Ethernet Switches for PLC & I/O Network Management and IPCs	PACSystems brand updated to Emerson
Emerson 24 VDC Bulk Power Supplies	PACSystems brand updated to Emerson
Emerson SolaHD Industrial Power Supplies	(no name or brand change)

Solutions Continuing Under the Movicon Brand

Industrial SCADA Solutions	
Simplified Product Names Now in Use	What Changed?
Movicon.NExT™ Open Industrial SCADA/HMI Platform for Site & Distributed Operations	(no name or brand change)
Movicon Connex™ Industrial Connectivity Hub	(no name or brand change)
Movicon Operator Visualization Interface	HMI updated to Operator Visualization Interface
